

Conference Room - Pink

PEDAGOGY

- Paradigm Shift / Upset Tradition / Flip
- Speaking with vs. talking at
- • Egos at the door
- Utilizing each individual skill set to achieve greatest result
- less silos - integrated learning

TECHNOLOGY

- Support Pedagogy - how tech is integrated & can it work for them.
- Training & integration
- Not just electronic - best situational could be low tech (this paper; white bd)
- Flexibility
- Push the envelope (if you build it they may come around...) 

- Support Collaboration
- Support technological integration
- Flexibility; Adaptive
- Multi-tasking
- Push the envelope (if you build it they will demand more of it.)

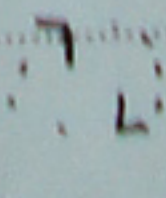

Goals:

- Expand "base of Knowledge"
- Greater retention
- Embrace technology
- • Collaborative Connection
- • Multiple delivery methods
- Champions - lead change

SPACE

ACTIVE LEARNING

Vicious Cycle 
active learning eco-system
 where do you break in?
